

Aberdeen and District Angling Association – Announcement

Launch of new website 2021

Notwithstanding all the Covid 19 restrictions which we all have had to endure over these past few months, I am pleased to announce, thanks to the hard work and dedication by the members of the committee tasked in organising it, the launching of the new Aberdeen and District Angling Association's Web site.

Responding to members comments in a survey organised by the management committee earlier in the year, this newly laid out website is now the shop window of all what the Association has to offer, not only to our members, but to the wider angling world.

All the vital information on the day to day running of the Association together with the maps on our various fishing beats, members catch returns and online rod booking sites are all there together with much more, and not forgetting our popular online shop for visiting angler's bookings. I am sure users will find the pages on our new website much easier to navigate through, and hope that you will make full use of it along with our very popular members Facebook group.

This new site further promotes the Association which includes a superb collection of colourful images on our extensive fishing beats on all our rivers and lochs and it is hoped that these stimulating images will lure more of you and anglers from afar to come and cast a line on our waters.

Tight lines

Paul Adderton

Acting President.
